

How to - Mini Succulent Garden

Materials

- shallow terracotta saucers
- paints & paint brushes
- loose soil
- assorted rocks
- propagated mini succulents
- assorted mini decorations

STEP 1

Decide and decorate your saucer with paint and any other stick on decorations

STEP 2

Gently fill the saucer to the top, leaving a small gap to ensure rocks won't spill out.

How to - Mini Succulent Gardens

STEP 3

Pick your succulents and have a go at loosely arranging them in the saucer. To place the succulent, press your finger in the soil creating a hole, load in the succulent roots, and gently pat and firm the soil around to hold.

STEP 4

Repeat this for all succulents, add extra soil if needed to ensure the succulents are compacted and in place.

STEP 5

Gently place the rocks around the succulents until the soil can no longer be seen. You may want to leave gaps for paths which can be filled with loose coloured sand, or fill the whole saucer with rocks.

How to - Mini Succulent Gardens

STEP 6

Add any tiny decorations, perhaps some miniature furniture from our Miniature Making session.
